Ban County Fee System, Auditor Howlett Urges

Michael J. Howlett, state auditor of public accounts, on Tuesday urged constitutional revision to prohibit accumulation of fees collected in certain county offices in Illinois.

Howlett testified before the Local Government Committee of the Illinois Constitutional Convention at Springfield. Under the existing constitution, he said, some elected county officials are allowed to collect fees and service charges, retain the collections, disburse from them for certain expenses of their offices, and periodically remit the "excess earnings" to the county treasury.

Officials involved are the state's attorney, sheriff, county recorder, county treasurer, county collector, county clerk and clerk of the circuit court. Their fee system has been in effect for almost 100 years.

City, State Fee Handling

"No such system is allowed in municipal or state government," said Howlett. "Revenues from fees and service charges of state and municipal officers are considered revenue of the government itself and not of the office collecting them. They must be promptly deposited in full in the government treasury."

"State officers, for example, must pay into the state treasury within 48 hours of receipt any money they receive. Every expenditure, including salary, must be provided for by appropriation."

"The county fee system permits accumulation of substantial sums of county money outside the treasury in separate bank accounts, drawn against only by the officer concerned."

"Operation of these funds does not show up in the general accounts of the county. The fee accounts may not be adequately audited."

Sound Plan Originally

"A century ago, the fee system probably was a reasonable attempt to make each county office self-supporting. In the early years, the county officer probably received only what the office earned."

"Through the years, the list of fees has steadily expanded. Charges are even made against the county itself. But it would be ridiculous for an officer to say his office runs itself without cost to the taxpayer. All government revenues come from the public, whether in the form of taxes or fees."

"In handling of real estate and personal property taxes, the county clerk, county collector and the county treasurer serve all local governments from whom taxes are collected, including their own county government. Illinois statutes authorize fees and commissions for their services, and also payments to the sheriff for services in following up the collection of taxes."

Pay Twice for Services

"Local governments 'certainly' should pay the county for these services. But why should the county pay its own officials for services they are supposed to give anyway under the salaries stipulated for them by law?"

"Charges for services to other governments should be treated as reimbursements to the county and go immediately into the county treasury. There should not be any charges at all by these offices for services to the county itself," Howlett asserted.

"The existing system should be revised completely. All charges for fees and services of all county officials should be considered county revenues. They should be turned into the county treasury as soon as collected."

"All charges of county officers to their own county should be eliminated. Salaries and all other expenses of each office should be included in the general budget of the county."

"The more we can simplify county financial management, the better the taxpayer public will be protected."

Ortiz Family Still Seeks Black Cat

A black cat, which holds its tail in a semi-curved manner, still is being sought by the parents of a 10-year-old boy who was bitten Tuesday, March 3, in the 2500 block of Adams street. The animal must be located to prevent the boy requiring a painful series of preventive antirabies injections.

Juan Jose Ortiz, a son of Mr. and Mrs. Steve Ortiz, 1744 Maple street, had been petting the cat which appeared friendly. The puncture wounds occurred when the boy withdrew his hand.

Anyone knowing where the cat may be found is asked to call the Ortiz family, at 877-4643, or the Granite City humane officer, at 878-8803. Although mainly black, the animal may have some white markings on its fur, Mrs. Ortiz said.

Youth Panel Gives Views On Operation of YMCA

The communication gap between adults responsible for administering the Tri-Cities YMCA and its most frequent users — local youth — may have been narrowed Tuesday evening by four local high school students who expressed their ideas to more than 100 persons gathered for the local "Y" for the 52nd anniversary annual meeting.

"One of the most enlightening and liveliest annual meetings held for several years," one "Y" official reported about the dinner session and program. He referred to a panel discussion, with comments from the youth full participants.

Moderated by Milton G. Reinhardt, YMCA Youth committee chairman, the discussion included panelists, Patti Bell, Jane Gabriel and Dennis Reutebach, all students at Granite City high school and a James Gardner, a Madison high school student.

The youth panelists stressed the need to de-emphasize "Y" programs involving membership recruitment, especially when coupled with financial needs; that more help should be sought from teenagers themselves and their parents in matters of programming; and emphasized that a communication gap exists between the YMCA and teens in the community.

Most teenagers identify the "Y" only with dances, panel members stated. They asserted that more contacts with teens should be made through the schools, posting future programs and events on high school bulletin boards or through distribution of flyers to students.

They strongly advocated high school age youth in Madison, Venice and Granite City "need to get-together," establish better communication, to learn each other's problems and socialize more through the YMCA. The students added that greater inspiration is needed from leaders of Tri-Hi-Y clubs and other youth groups to assist them in achieving and suggested that high school basketball and baseball programs should be sponsored in Madison.

Few recreational activities are available for Madison teens, it was stressed. The panel suggested that high school basketball and baseball programs should be sponsored in Madison.

St. Louis Man Shot By Brooklyn Officer

A St. Louis man who had been involved in a disturbance at a Brooklyn tavern and arrested by police early Monday morning was fatally shot by a police officer when he got out of the patrol car, started another disturbance with the officers and appeared to go for a weapon in his pocket.

Willie Ball Jr., 19, of the 5100 block of Minerva street, St. Louis, died five minutes after reaching the St. Elizabeth Hospital emergency room.

Madison County Coroner Robert Thomas said death was caused by a .38 caliber bullet wound in the chest, just above the heart. An inquest is pending the results of an investigation by the coroner's office.

Thomas said that police reported a fight, involving several persons, was in progress outside the Swang Tavern in Brooklyn when officers arrived at the scene. Ball was arrested for peeing disturbance and placed in the squad car, but got out of the vehicle and started arguing with police.

He was ordered to return to the patrol car, with the officers firing two shots into the ground in an effort to get Ball to comply, Thomas stated. When it appeared the St. Louis man pulled a weapon from his shirt pocket, Patrolman James C. Towns of the Brooklyn force shot the youth, the coroner said.

Several witnesses were in the vicinity when the incident occurred. No weapon was found on the dead man, Thomas noted.

An inspection of "Y" facilities also is offered.

Griffith to Ask

He said, "I believe the situation is serious enough to justify state help. For that reason we are writing Gov. Ogilvie and Atty. Scott asking for their assistance in providing an investigator."

We need a man with accounting ability who can go into the financial picture in depth," Griffith added.

Grand Jury Informed

He said today the Madison county grand jury, which is in session every Friday, has been informed of the levee district picture "as we see it now, and we are keeping them informed from week to week as developments occur." He said no witnesses have yet been called to appear before the Madison county grand jury.

Marshall Smith, assistant state's attorney who has been placed in charge of the Madison county phase of the investigation, blamed voters of the district for failure to elect trustees who would accomplish reform in the levee district.

He described the district as "a failure of local government and democracy," and remarked, "It won't be changed by people who are indifferent and apathetic to its problems."

"Some outside influence is needed for a change, and I think the two state's attorney's office (Madison and St. Clair county) can do it. But we'll need help from everyone."

To Write Senators

For this reason, Griffith said, letters are to be sent to U. S. Sens. Ralph T. Smith and Charles Percy, and to Cong. Melvin Price of the 24th Congressional District, outlining available information and requesting their aid in an investigation.

Griffith said they will be asked particularly to arrange for cooperation of the U. S. Army Corps of Engineers of St. Louis with the state's attorney's office in establishing facts pertaining to policies and practices of the levee district in recent years.

The Army Corps of Engineers built the main riverfront levees along the Mississippi but leaves responsibility for maintenance of the levees up to the levee district in the area from Venice to Cahokia.

Discuss Sewer Cost
Board Member Douglas Tee-

Board reported that town board members met recently with Granite City Mayor Donald Parney to discuss a request by the city of Granite City for a township share half of an estimated \$15,000 cost for installation of a large drainage line along Route 203 when the highway is improved by the State Highway Department.

The board took no action in the matter. Whittell said the request is to be considered by town officials. Patrick told the board that it was his understanding the city could use motor fuel taxes for the stormwater line, while the township would not receive motor fuel tax aid.

The \$15,000 cost represents the difference between installation of a 42-inch main as originally planned by the state, and a 60-inch line which Parney says would be preferable because other lines could be tied into the larger sewer and improve drainage over a wider area.

The board was notified by Mayor Edwards of Granite City that the township's 1969 property valuation on which tax bills will be based for collection this year, is \$28,753,004, of which \$36,715,585 is in local assessments and \$2,017,449 is in railroad and capital stock assessments made by the state department of revenue.

Inspector Resigns
Resignation of T. W. Teney as township health inspector was accepted by the board. Teney informed board members he is moving to Detroit, Mich., to a new job.

A request by Joseph Cohen, township assessor, for authority to employ two additional deputies for assessing work was approved.

Bills assessed \$3817, of which \$2754 were in the town fund, were approved. Whittell reported that the township had March 1 fund balances of \$19,715 in the town fund, \$10,538 in the road and bridge fund, \$16,266 in the permanent road fund, \$98 in the special bridge fund, and \$6777 in the retirement fund.

Whittell said he had no report on the general assistance board, who as supervisor directs the general assistance program for the township, did not attend the meeting.

'Winter Carnival' Set Tuesday at GCHS Gym

About 350 youngsters who take part in the Granite City park district's recreational programs will present the district's annual "Winter Carnival" at 7:30 p.m. Tuesday in Granite City high school's Memorial Gymnasium.

The two-hour entertainment traditionally highlights the park district's fall and winter season and enables youthful participants the opportunity to perform for their families and friends. No admission is charged for the show, however, a ticket is required for admittance.

Harold Brown, park superintendent, said today more than 2000 tickets have been distributed to local youngsters. The program will feature songs by pre-school children, baton twirling, tumbling, square dancing, exhibition wrestling, and fifth and sixth grade basketball.

Oratorical Contest Today

Competition in the initial phase of the annual Optimist club oratorical contest began at 12:30 p.m. today at the Rose Bowl restaurant, with seven youths from two local junior high schools presenting speeches at the Optimist Club's luncheon meeting.

Governor Draws GOP Criticism For Endorsement

Heated criticism of Gov. Ogilvie by many Madison county Republican candidates and party leaders followed a Lincoln Day dinner meeting in Alton last night in which the governor endorsed Robert J. Walters, Alton, as his favored candidate for election as state representative of the 55th Representative district.

Walters is one of five Republican candidates seeking the single representative post subject to election in the 55th district this year. It is the same seat that was vacated last fall when Gov. Ogilvie appointed Ralph T. Smith of Alton, then a GOP representative, as U.S. Senator to succeed the late Senator Dirksen. The 55th District encompasses the Quad-C area along with Collinsville, Alton and Wood River townships.

All of the candidates were present last night and seated at the head table when Gov. Ogilvie, during his introduction of the principal speaker for the dinner meeting, emphatically endorsed Walters and urged them to support him. "He needs him in Springfield," Edmund Kucharski, now treasurer of Cook county and a candidate for nomination as state treasurer in next Tuesday's primary election, delivered the main address.

Came as Surprise

The governor's endorsement drew criticism from Charles "Bill" Burris, Granite City, a candidate for the representative post, who said that the incident came as a great surprise to me and to a lot of others. I expected the governor to praise Walters for work he had done for the community's behalf, but none of us expected this (the endorsement).

"If the governor had not said that the work Walters has done for the Republican party was done as a public relations man and that he was paid for it, Walters' efforts for the party have all been on the receiving end, while we other party workers go out and spend our own time and money," Burris added. "I am sure he wants to be in Springfield because Walters would do as the governor wishes, while the governor would not be able to depend upon any of the rest of us following his dictates."

Charles C. Thomas of Bethalto, another representative candidate and a former chairman of the Madison County Republican Central committee, said he was certain the governor didn't endorse Walters "because I'm not a Republican. I have been a lifelong active Republican. I'm sure he didn't make the endorsement because I didn't support him, as I was treasurer of his booster campaign. He must have made the endorsement because he wants a rubber stamp representative."

Contradictory Speech

Thomas said the governor contradicted himself in his speech, in which he at first criticized the Democrats for "boomer" and then said he was in favor of an open primary.

"Then he closed the primary by endorsing one out of five candidates for one office," Thomas noted.

Gov. Ogilvie also said last night he was calling upon U.S. Senators Percy and Smith to advise the Defense Department that Illinois does not want to be the trial balloon for cutbacks in defense spending through shutdowns of military installations, such as the Granite City Army Depot.

In a news conference preceding the Madison county Lincoln Day dinner at Alton, where Gov. Ogilvie was speaker, he also said he was hopeful of ending the federal fund freeze on highway projects in Madison and St. Clair counties.

5700 Local Children Get Rubella Vaccine

An estimated 5700 Quad-C youngsters today are immune to Rubella (German Measles).

Sister Jerome of St. Elizabeth Hospital, who coordinated distribution of Rubella vaccine in this week's mass inoculation program, said today a total of 5700 of 13,400 available doses was used in the vaccination programs in Madison county, including 5700 shots given in local schools and at clinics for pre-school children.

Authorities hope the free, community-wide inoculation program can be repeated this fall or early next year, depending on whether sufficient vaccine is allocated to this area.

Dr. Felicia D. Koch, who headed the volunteer medical teams working at local schools and special clinics, said only 115 pre-school-age children were vaccinated at the Madison Memorial Center and 57 pre-schoolers at the West Madison Center on Tuesday.

An unexpected problem caused some confusion yesterday in several Granite City schools where inoculations were to be given during the afternoon hours, and may account for a reduction in the number of overall shots, it was learned.

The snag involved wording on parental permission slips, distributed through the schools, which noted that inoculations should not be received by

Summer Classes for Deaf
Also approved was an oral deaf summer program under which Granite City pupils will be sent to Roxana classes.

A reimbursement claim for 1969-70 vocational education was authorized: \$84,875 is to be received from the federal and state governments.

Mrs. Ruth D. Lahr, 330 Lenox avenue was granted a third one-year leave for 1970-71 to continue her duties as supervisor of reading and English under Title Three, National Defense Education Act, in the state office of public instruction.

Mrs. Mary Ann Tieman, Edwardsville, a Lake school under primary teacher, was granted leave effective April 15. Marilyn Wickman, 2518 Edison avenue, who has been on leave, resigned due to family responsibilities.

Arrested in Madison

Two men were booked by Madison police on disorderly conduct charges about 12:20 a.m. today after they allegedly tried to remove a battery from a parked car at the rear of Crimes & Consequences, 1515 Third street, Madison, police reported.

Police said they arrested Jerry Harold Smith, 19, of 2803 Kirkpatrick Homes, and Daniel C. Locke, 26, of Bourbon, Mo. Both posted cash bond pending hearings.

down from last year's \$3100. Members of the town board, acting in regular session Monday night, approved a special appropriation ordinance for the office of Town Collector Edgar Patrick. Town Clerk Louis Whittell pointed out the budget is the first ever established for that town office.

It fixes the collector's commission at \$6000, provides \$4200 for deputy collectors and \$200 for travel expense. For office expense the budget provides \$1100 and another \$250 is budgeted for contingencies—for a total overall budget of \$11,000.

The ordinance projects estimated receipts of \$26,000 by the collector's office, representing 2% commissions on tax collections. It also sets up a \$500 advance office fund after the tax collection for immediate expenses, increasing the office revenue to an estimated \$26,500.

On the basis of the budgeted expenditures of \$11,800, the ordinance projects a balance of \$14,700 to be turned over by the collector's office to the township fund after the tax collection for immediate expenses, increasing the office revenue to an estimated \$26,500.

Program Adopted For Clean Air At Venice Plant

Union Electric Co. will reduce its kilowatt capacity when using coal in its boilers at the Venice power plant to meet state air quality standards, the Press-Record was told today.

An agreement was reached with the state on an air contaminant reduction program which eventually will meet state standards, according to John F. McLaughlin, executive assistant at the utility, who testified Monday at an Illinois Commerce Commission hearing at Springfield.

The program, expected to be in effect by 1972, will eliminate fly-ash from the stacks of eight boilers at the Venice plant, McLaughlin said.

When operating at a 500,000 kilowatt capacity, sulphur-bearing coal produces contaminants flowing out of the stacks, but if the amount of power is reduced to 330,000 kilowatts of power, electrostatic precipitators now on hand will be sufficient to handle the problem "and we will have clean stacks," McLaughlin said.

Six of the eight boilers are equipped to utilize natural gas, and when gas is available, especially in the summer, the plant will operate at top capacity, he added. Gas does not produce contaminants.

The agreement will be in effect except under unusual emergency conditions, McLaughlin told the commission.

The new policy will have no effect on the labor force at the plant, the official said.

Dismissal Denied in Chouteau Island Suit

A motion to dismiss a mandamus suit against the county by the Chouteau Island Corp. was denied this morning in Madison county circuit court at Edwardsville.

The corporation, which wants to re-open a landfill on the island, was given 10 days to file an amended complaint to determine if there is a zoning violation in the use of the land. The county will have five days after the amendment to file an answer, according to Marshall Smith, assistant state's attorney.

Smith, who insists in a letter to the county board of supervisors sanitation committee, that the county sanitation ordinance is vague and indefinite, said there still is a question as to the previous intention of the firm in abandoning the old landfill as a non-conforming use under the zoning ordinance. The area is zoned agricultural.

He said if the court issues the mandamus writ ordering county officials to fulfill their obligations, the court will order amendments to the sanitation ordinance to provide specific regulations and operational guidelines for landfills.

Mercer, Bellemore To Open on April 12

The Southwestern Illinois Inter-City Baseball League's 1970 season will begin with three games at 2:30 p.m. Sunday, April 12, League President Olie Miller announced this week.

The loop again will have six teams. Two teams are from Granite City: Mercer Mortuary and the former Granite City Steel Credit Union squad which this season will be sponsored by Bellemore Sporting Goods.

The Puchentus Braves have dropped from the circuit and will be replaced by Pierson of Highland.

Benefit Soccer Game Saturday for Cougar Journey to Ireland

Coach Bob Gueller, whose SIU-SW soccer team will play in the University College of Dublin, Ireland, soccer tournament March 28-April 4, has named a 22-player squad to make the trip.

The Cougars will play the St. Louis pro soccer stars in a benefit game Saturday afternoon on the SIU-SW field starting at 2 p.m. Admission is \$1. All receipts will go toward helping to defray expenses of the trip.

It will be composed of the same players who posted a 10-1 record this past season, the only loss coming at the hands of St. Louis University, 4-0, in the Midwest regional NCAA tournament. St. Louis U. went on to win the national championship.

The Cougar kickers will be led by their all-time high point-maker, big John Caranza. The former St. Mary's of St. Louis prep star, a sophomore, had a sensational season last fall when he scored 20 goals and was credited with five assists for a total of 25 points.

He was closely followed by tiny Jack Blake, speedy outside right, who booted nine goals and had seven assists for 16 points. Center forward Tom Howe, a CBC grad, was third highest Cougar scorer with eight goals and six assists. Blake played his prep soccer at Mercy High.

Others on the squad will be: John Barron, Rick Benben, Mike Boland, Mickey Conway, John Deinoski, Dennis Driscoll, Vincent Fassi, Fred Faucci, Joe Galvin, Kevin Howe, Dennis and Edward Huneke, James Kersting, Gary Nitz, Larry and Steve Schmidt, Jim Stanz and Leo Strentau.

Assisting Gueller will be Joe Baum, former Michigan State U. soccer standout, and Wilfred "Bud" Buddell, trainer.

Miller, Joe Foss Bag Pheasants on Farm at Red Bud

A late winter pheasant hunting trip would be enjoyable any week to Harvey Miller, president of the Gateway Loan Corp., 1223 Madison avenue, Madison.

But hunting on the Elm Shade farm of Adolph Hitzmann at Red Bud, Ill., was particularly thrilling to Miller because it was successful and because one of his hunting partners was famed Joe Foss, 1855-59 governor of South Dakota and 1956-66 commissioner of the American Football League.

Despite these high offices, Foss is even better known for leading a U.S. Marine Air Force unit known as "Joe's Flying Circus" in world war II. A top fighter pilot in the South Pacific, he received the Congressional Medal of Honor, Bronze Star, Silver Star and Purple Heart.

The unit shot down 72 Japanese planes, and Foss personally destroyed 26 of them. During the Korean war, he was the director of operations for the Central Air Defense Force.

A Republican, he was born near Sioux Falls, S. Dak., and

Cahokia Joins List Of Schools Applying To Join Conference

The Southwestern prep athletic conference made no decision on which schools' application if any, to accept as new members of the loop at a meeting at Belleville West Monday afternoon.

Cahokia high added its application for membership to those of East St. Louis Lincoln and Belleville East.

The league is considering expansion to more than the present seven-school setup.

With the departure of Wood River to another conference, expansion would mean accepting at least two new members to make an eight-team circuit.

A revision of the constitution would be necessary before expansion and all the members will meet as a committee on April 29 to consider constitutional changes. The committee's work is to be presented at the next regular conference meeting May 25.

SOCIETY

Altar Society Plans Events

The regular monthly meeting of St. Ann's Altar Society of St. Joseph's Church was held Tuesday night. The meeting was called to order and opened with prayer by Mrs. Ann Pieper, president.

A financial report was given by Mrs. Irma Manning and financial arrangements were made for a dance to be held Saturday night in the church hall. Music will be by the Mike Bunk trio, and admission will be \$1 per person at the door.

A tacos and tamale supper is to be held April 18. A dance featuring the Butch Bucher band is being planned for May 2.

A donation was made toward remodeling the kitchen in the church hall. It was decided that quilts would be sold that have been quilted by members of the Altar Society. Anyone wishing to purchase a quilt may contact Mrs. Pieper.

Rev. Martin Mangos, pastor, closed the meeting with prayer. Refreshments were served by the women of State street with Mrs. Bonnie Boyer as committee chairman.

RIDC Urges Intermodal Terminal Complex

A new concept of moving goods through regional freight terminals serving large parts of the nation is outlined in a new report prepared by the Regional Industrial Development Corporation and submitted to Illinois Gov. Ogilvie. It was announced yesterday.

The report — "Future Transportation and the Intermodal Terminal Complex" — calls for a completely integrated freight interchange center which would tie the area's rail, truck, barge and pipeline services into a single facility around the new metropolitan airport proposed by Governor Ogilvie.

The report, prepared by Mrs. Sara Creed, RIDC research associate, after months of research into the transportation field, asserts that because of advances in transportation technology, and a growing ability for freight to be transferred from one mode to another re-

sulting from freight containerization, huge new terminal complexes will develop around heavily populated areas which easily could serve areas within 500 miles of the terminal.

Area Would Be First
RIDC proposed that the new St. Louis regional airport, which Illinois is seeking to locate in the Illinois section of the metropolitan area, be the heart of the nation's first such intermodal terminal complex.

The St. Louis metropolitan area "is falling behind in providing updated methods and facilities (for the transportation sector) of its economy, the report states, adding that "this situation must be remedied if the area is to continue to grow."

It emphasizes that transportation in the future will utilize close coordination among modes of goods movement for which it is best suited and improve the physical transfer of goods among different modes of transport, which would work toward providing the most efficient carriage and distribution of goods possible.

Charles James, RIDC director of research, said that the St. Louis metropolitan area offers the advantages of central location, varied economic activity,

ample open land close to the city's center, all modes of transportation, nationwide and international trade.

Leaders Show Interest
Most important, he said, is the active interest of area leaders in improving regional transportation and that they are now engaged in planning for the future.

The Intermodal Terminal Complex proposed in the report would include terminal areas for all transportation modes, with the complex near light and heavy manufacturing facilities, warehouse and commercial developments, and urban access highways. The efficient transportation the complex would provide also would be a real asset for local firms by reducing transportation time and costs for everyone of the 30,000 firms now doing business anywhere in the bi-state region, the report states.

It also stresses that new transportation technology require concurrent changes in freight terminals. Future goods movement will call for large, regional multimodal terminals adjacent to, but outside major metropolitan areas. Freight interchange would be the terminal's main activity and the facilitating of intermodal change the main aim of the terminal's design.

REUNION IN GERMANY. Pfc Randolph Suchich, at left, and Sp5 David McClelland, who recently met in West Frankfurt, Germany, where the pair is stationed with different Army units. The servicemen were close friends while growing up in Madison.

Madison Buddies Enjoy Reunion in Germany

Two boyhood pals who graduated together from Madison high school in 1967, recently enjoyed a reunion in West Frankfurt, Germany. Both wrote home enthusiastically about their meeting, the first since one left for Germany more than a year ago.

The servicemen are Army Pfc Randolph Suchich, 20, son of Mr. and Mrs. Rudy Suchich, 1106 Greenwood street, Madison, and Sp5 David McClelland, 21, son of Mrs. Lucille McClelland, 608 McCanbridge avenue, Madison. Pfc Suchich joined the service

last Aug. 12 and was assigned to the 143rd Signal Battalion, near West Frankfurt, on Jan. 5. He was previously employed at Owens-Illinois Company's Madison plant.

Sp5 McClelland entered the Army in December 1968 and has served with the 16th Signal Battalion in Germany more than a year. He is a former employee of Kisco Co., St. Louis.

The reunion in West Frankfurt was arranged when both found themselves assigned to military units in the same area of Germany, Mrs. Suchich said.

100% Grants to Fight Crime Offered-Ottwein

State Senator Merrill Ottwein announced this week that he is employing the resources of his office to make the local governments and law enforcement agencies of his district aware of their eligibility to secure grants from the Illinois Law Enforcement Board of Boys Scouts.

Under the commission's "Action Now" program, a special \$1 million fund was created to provide grants for local crime-control projects. Local units may receive up to \$10,000 in aid and, uniquely, no matching local financing is required.

Sen. Ottwein, who was instrumental in securing the appropriation of funds by the General Assembly, said, "I am intensely interested in encouraging the local governments of my district to avail themselves of this opportunity to initiate much-needed surveys and anti-crime programs."

"Action Now" funds are specifically aimed at stimulating programs in three areas: police management, community relations and law enforcement training. Eligibility is based on the size of the local police force or the population of the community, but several neighboring departments or local governments units may apply jointly for funds.

Consultants may be hired to perform necessary studies, recommend community relations programs or improvements, and develop training programs for persons working in the area of criminal justice. "Action Now" is an attempt by the state to accelerate the pace of efforts to prevent and combat crime on the local level," Ottwein noted in stressing that his office is ready to aid local governments and eligible agencies in their efforts to secure funds under the program.

Paddlers Board Plans for Season

The board of directors of Paddlers, Inc., swim pool met Tuesday evening in the library of St. Elizabeth Hospital to approve new members and complete plans for the 1970 season.

Mrs. LaVerna Meyers, membership chairman, submitted the following families for approval as new stockholders. They are Mr. and Mrs. William Metcalf, Mr. and Mrs. Claude Kessler, Mr. and Mrs. Thomas Baker, Mr. and Mrs. Harvey Scardale, Mr. and Mrs. Edward Duffin, Mr. and Mrs. Frank Kalips, Mr. and Mrs. John Petrovich and Mr. and Mrs. Conrad Champion.

Approved for summer memberships are Mr. and Mrs. Nelson King, Mr. and Mrs. Tom McRaven, Mr. and Mrs. Jerry Oxford, Mr. and Mrs. Joseph Krystova, Mr. and Mrs. James Swift and Mr. and Mrs. Jerome Trockler.

Named to serve on a future planning committee were Dr. Dr. Benjamin Rose, Fred Cunningham, Arthur Hoff, Dick Pittenger, Robert Becherer, Jerry Range, Al Malotki and Mrs. Meyer.

A brief discussion was conducted on the budget for this year and President Robert Conraux appointed Cunningham, Range, Pittenger, Dr. Rose, Mrs. Meyer, Earl Buenger and Charles Gauen to prepare the 1970 budget.

The committee will meet in the home of Cunningham on Tuesday, March 17 to complete the budget project.

The next board meeting will be April 14 in the hospital library.

Ottwein Subcommittee Begins Welfare Study

Senator Merrill Ottwein, (R, Edwardsville) expressed satisfaction this week over the results of the first meeting of a new Illinois Senate subcommittee which he heads.

The subcommittee was formed specifically to study the reorganization of welfare programs in Illinois.

The meeting was the first session of year-long hearings planned in an effort to present a plan of coordination and unification of the various social service systems to the 1971 session of the General Assembly.

Federal, state, local and private social service programs will come under study.

500 Separate Programs
The committee heard from two witnesses, both calling for new forms of delivery of social services that could serve people better at less cost.

Donald Simpson, regional administrator for social rehabilitation, U. S. Department of Health, Education and Welfare, told the group the Illinois Social Service Program was one of "waste and confusion." In one example he said there are up to 500 grant-in-aid programs operating independently of each other.

Dan Harold Richman of the University of Chicago School of Social Service Administration said that "we should be looking to the prevention of some of our social ills rather than applying 'band-aid' types of programs — correctional services offered only after problems arise."

Study Seven Departments
Under specific study by Ottwein's group for reorganization are the Illinois Departments of Public Aid, Labor, Public Health, Mental Health, Correction, Vocational Rehabilitation and Vocational Education.

Ottwein said the hearings would be held in the following order: Public Aid, Labor, Public Health, Mental Health, Correction, Vocational Rehabilitation and Vocational Education.

Final preparations for the club fashion show which will be held Sunday at SIU-SW were discussed.

The officers voted on four new probationary candidates and a report was given on the Feb. 23 birthday party held at the Columbian Nursing Home for nine of the patients.

Plans were made for an Easter party during a weekly meeting of Marshall PTA Brownie Troop 492 at the home of the leader, Mrs. Skippy Kidman, 2816 Faith avenue, Tuesday evening.

A formal flag ceremony opened the meeting and the following scouts were elected for a six-week term: secretary, Lisa Piquard; treasurer, Carol Ann Kidman; and publicity chairman, Robin Saltsgraver.

At a handicraft session, the members made bunnies cut of paper bags and decorated them to take home. The troop will participate in the District Four week, decorating ice cream cartons with colorful egg cutouts. Each scout is to bring a bag of candy, and some of the members will bake cookies to fill the Easter baskets, to be

Ross Randolph Tells of Drop In Crime Rate

Ross Randolph, director of police for East St. Louis, spoke at the Tuesday luncheon meeting of the Granite City Rotary Club, outlining the work he has accomplished in the field of law enforcement and his future plans.

Introduced by Warren DeCatur, Randolph said he is a former school principal, former FBI agent, formerly served as warden at Pontiac and Menard prisons in Illinois, and was employed by the state of Illinois as director of Public Safety prior to going to East St. Louis.

In beginning his second year in East St. Louis, Randolph said, "I learned the importance of communication as a result of work in prisons, and have had the offer and assistance of former inmates who wish to help me in my work."

Randolph said there now are

\$689,006 in Building In County for Month

Forty-four building permits listing values totaling \$689,006 were issued for new construction in unincorporated areas of Madison county during February by Jack R. Clifford, county building official.

Included were 24 homes, \$508,500; eight additions and garages, \$19,400; two for church and school purposes, \$4700; five business and commercial, \$152,756; three advertising signs, \$2500; and one miscellaneous, \$850.

fewer crimes and more arrests in East St. Louis.

He has started an auto theft club to lower the rate of auto thefts and said emphatically that he is in favor of the gun control laws and believes this law has done a great deal in lowering the number of hold-ups.

Carl Mathias, club president, opened the meeting and welcomed 50 members and a guest, Police Chief Ronald Veizer of Granite City.

"I learned the importance of communication as a result of work in prisons, and have had the offer and assistance of former inmates who wish to help me in my work."

Randolph said there now are

Lotsa Action in East Bank Players 'Guys and Dolls'

In a quiet corner of the Granite City Elks Club, away from the high-kicking chorus line and strains of a sentimental old number, both under rehearsal for the East Bank Players production of "Guys and Dolls," a suspicious-looking quartet was gathered around a soft brimmed hat, plying their "gambling" trade with obvious ease.

The foursome—also rehearsing—will portray the male lead roles as gamblers and their Irish cop buddy in the popular Broadway musical, to be presented Friday and Saturday, April 3 and April 4, in the local Elks Club ballroom.

Dice shooting practice sessions, along with other segments of the colorful musical, are being conducted at the men's club almost nightly, strictly on "the up and up." A certain air of legality is afforded the proceedings as participants include two local lawyers and a law enforcement agency official who portray characters in the show's gambling sequences.

An Irish Cop

Appearing in the role of Lt. Brannigan of the New York City Police Department—"an Irish cop with a heart of gold"—will be Dennis Hogan of Granite City. Currently serving as assistant public defender for Madison county, the lawyer appears "well-suited" for his future role, according to Mill Hoelscher, producer.

Hogan obtained his law degree from DePaul University

STRICTLY PRACTICE. Rehearsing their roles for "Guys and Dolls," local actor Dennis Hogan (left) portraying Lt. Brannigan in the show, breaks up a floating crap game run by Assistant State's Atty. Amerik Kachigian, next to Hogan, as "Nicely-Nicely Johnson," Mike Tharp, foreground, as "Benny Southstreet," and Henry Lamb as "Harry the Horse." The musical will be performed April 3 and 4 at the Elks Club.

and prior to moving to Granite one of the promoters of the City performed several roles in "big crap game" and lead singer in the rousing musical number, "Sit Down You're Rocking the Boat."

Another local lawyer, Assistant State's Attorney Amerik Kachigian, will be seen in the group was formed, "Rik" Kachigian sang with the Repre-

tory Opera Company of St. Louis and the Mississippi Valley Opera Company. A well-trained singer, he has also appeared with the Kay Shanahan Singers in Alton.

Henry Lamb of Granite City, making his debut in community theater productions as "Harry the Horse," who always has a "good winner" to impart to his friends, sang in choral groups and glee clubs when a student at Rolla School of Mines.

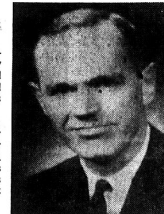

Hubband, Wife Team

Employed by Metzler and Drinkhouse Consulting Engineers in St. Louis, Lamb is a member of the board of directors of Paddlers, Inc., and serves as a Boy Scout institutional representative. He and his wife, Ruth, who will appear in the dancing chorus, are the only husband-wife team among the performers.

Rounding out the "gamblers" will be Mike Tharp, a local student at Southern Illinois University-Southwestern campus, who has been assigned the role of "Benny Southstreet." The youngest member of the gambling quartet serves as assistant coach of the Tri-Cities YMCA competitive swim team—the Tidal Waves.

The East Bank Players will perform "Guys and Dolls" in a modified "theatre-in-the-round," enabling beverages and snacks to be served from the Elks Club before and during the intermission period.

Certain time for both Friday and Saturday's performances will be 8:15 p.m. Tickets currently are on sale by Players' members and are also available at several locations in the local community.

County's EOC Proposes Youth Training Program

A proposal for a youth training program to develop marketable work skills in young men and women ages 16 to 25 will be submitted to federal officials by the Madison County Economic Opportunity Commission, it was announced today at Edwardsville by Maurice S. Harris, executive director of the anti-poverty agency.

If approved, the proposal would enable the EOC to set up job training programs for the benefit of disadvantaged youth in Granite City, Madison, Venice, Alton and Edwardsville.

Robert F. Jacob, head of the Sociology Department at Illinois State Community College, is chief consultant for the project.

"We hope to develop this program with a view toward training the enrollees not only for permanent employment but for leadership roles in community activities," Harris said.

The program is expected to offer training in the building trades, business management, marketing, personal service occupations, graphic arts and communications.

The project, if approved, is tentatively scheduled to begin in June.

10 resounding reasons why you should buy a new Chevrolet instead of a new something else:

- Higher resale value.** Year after year. No other car in Chevrolet's field gives you as much back on your initial investment.
- Deep down value.** Exclusives like flush-and-dry rocker panels and an extra set of fenders keep Chevrolet looking good longer.
- Smooth, smooth ride.** Because of Chevrolet's computer selected springs, Full Coil suspension and advanced body mounting system.
- Impressive styling.** The impression is that it's an expensive car, if you want to make an impression.
- Massive interiors.** Result? Room to stretch out or to sit tall. Chevrolet has more front leg room than any other car in its field.
- Side-guard beams.** Chevrolet puts more between you and the outside. Steel beams built into every door.
- A finish that lasts.** It's unfortunate other cars in Chevy's field don't have a Magic-Mirror finish because it sure keeps its shine.
- Exceptional engines.** Chevrolet's standard 350-cubic-inch V8 runs on regular fuel. Plus there are five more engines available.
- Tremendous selection.** Of colors. Of accessories. Of engines. Of transmissions. Of fabrics. And of models. There are nine big Chevrolets alone.
- America's favorite.** Something a new "something else" can't claim. If actions speak louder than words, doesn't this say something to you?

Putting you first, keeps us first. CHEVROLET

Balloting in the national, state and district primary elections Tuesday, March 17, will involve only a scattering of contests, highlighted by the bid for the Republican nomination as U. S. Senator between incumbent Sen. Ralph T. Smith of Alton and William H. Rentschler of Lake Forest, Ill.

While a third candidate for the senatorial nomination is on the ballot, Lar "America First" Daly, he is expected to play a minor role in the election in this area.

With exception of the senatorial balloting, there are no other offices for which there is opposition at the top of the ballot.

Page Is Unopposed

Edmund J. Kucharski, Chicago, now treasurer of Cook County, is unopposed on the state ballot as candidate for state treasurer, while Ray Page, incumbent Republican superintendent of public instruction, seeks re-nomination without opposition.

David F. Mallett of Troy is unopposed on the GOP ticket for nomination as clerk of the Fifth District Appellate Court, and William H. Rentschler, Republican candidate for a congressional seat in the 24th Congressional District, also without opposition.

Only contest on the Democratic ballot at either the national, state or district level is in the two-way race for nomination as appellate court clerk.

Walter T. Simmons, Venetia, is seeking the Democratic nomination as clerk of the Fifth District Appellate Court to complete the remaining four years of an unexpired term.

Simmons now is serving as appellate court clerk by appointment of the appellate judges who named him in December, 1966, following the death of the late James McLaughlin who had been re-elected in November to a six-year term.

Former Gov. Samuel Shapiro called a special election to fill the unexpired term, but set primary and election dates of the special balloting to coincide with those of this year's regular primary and general election.

WM. RENTSCHLER

WILLIAM H. RENTSCHLER, Lake Forest, Ill., is opposing state-wide Republican organization as a candidate for nomination as U. S. Senator in the primary election. The senator's post is open to election for a remaining four years of the term. Three candidates, including Rentschler, seek the nomination.

Rentschler, 44, who has a diversified background as businessman, banker, newspaper reporter and columnist, civic leader and politician, ran a strong race for the U. S. Senate in 1960. His close ties to President Nixon date back more than a decade. He recently served in a major role in the President's National Program for Voluntary Action in Washington, D. C.

He has been campaigning on the contention that Republicans want an open primary and for that reason favor his candidacy. He has warned repeatedly that overconfidence could cost the Republicans the U. S. Senate seat this year, control of the legislature at Springfield and many county offices.

Rentschler has noted his belief that some Republicans think "both dangerous and unrealistic," but describes this as "a dangerous and unrealistic."

In 1959, Rentschler was honored as one of Chicago's outstanding young men by the Junior Chamber of Commerce. He has received the Boy Scouts of America's Distinguished Achievement Award for service to the community. In December he was named "Man of the Year" by the Illinois Citizens Foundation.

Rentschler is a Navy veteran of world war II. He is a graduate of Princeton University with a BA degree in American History.

He served as editor of the Daily Princetonian and as a trustee of Rockefeller Foundation. Rentschler is married and he and his wife, Martha, have nine children ranging in age from 19 to 19. It is the purpose of this opinion if they attempt to switch parties.

But a person makes a mistake in marking his ballot, he may always request another ballot from the judges and return the one marked in error to the judge who places it in an envelope marked "Ballots voided before 6 p.m."

Blind persons or paraplegics may have a relative or friend assist them in marking their ballot or they may request the team of judges (one Democrat and one Republican) to assist them.

LAR DALY

LAWRENCE J. DALY, 58, lives in Chicago and is a candidate on the Republican ballot for nomination as U. S. Senator in the March 17 primary election.

Daly, a native of Gary, Ind., has been a frequent candidate in presidential primaries and as a write-in candidate for president on both the Democrat and Republican ballots, and campaigns nationally as Lar "America First" Daly.

He also has been a candidate for U. S. Senator from Illinois in five previous primaries, for governor of Illinois in three primaries, for mayor of Chicago on four different occasions and also has been a candidate for state superintendent of public instruction, superintendent of schools of Cook county and for congressman.

Daly has lived in Chicago for 52 years. He attended schools there, formerly operated a fruit and vegetable business, and now is owner and operator of American Steel & Chair Co. on Chicago's South side.

He is married and has five children.

For Treasurer

EDMUND J. KUCHARSKI, now treasurer of Cook County, is unopposed on the state Republican ballot as candidate for state treasurer, subject to the March 17 primary.

Kucharski has been in public life almost continuously since he reached voting age. In 1947 he became the first Republican in history to win the 12th Ward Aldermanic seat in the Chicago City Council, defeating one of the strongest Democratic Ward Organizations in the city.

As a member of the "economy club" on the council, he developed a reputation for his interest in and concern for efficiency of government, which earned him Republican support as a candidate for Clerk of the Superior Court in 1952. He won that post handily, polling 22,000 more votes than President Dwight D. Eisenhower received in 1952.

He was elected county recorder of deeds in 1950, subsequently reducing the budget of the Cook County by cutting out needless payrolls and modernizing office systems by microfilming and new management techniques.

In December 1962 he assumed the post of undersheriff of Cook county, directing the administrative affairs of the sheriff's office for Richard B. Ogilvie. He became a close ally of Ogilvie in a campaign to improve law enforcement in Chicago and Cook County.

He was elected county clerk with Ogilvie to strengthen the Cook County Republican party. In 1966 he was elected treasurer of Cook county. Since he took office his record included an investment program that will result in savings of about \$24 million in his four-year term; reduction of 100 employees without affecting operation of the office at a savings of \$55,000 a year.

For the past two years he has been chairman of the Cook County Republican Central Committee, and his revitalization of the party was considered an important factor in the party's 1968 success in Illinois when Ogilvie was elected governor.

Kucharski attended Henderson University in Lincoln, Mo. He received his LL.B. degree from John Marshall Law School in Chicago in 1941. He holds real estate and insurance brokers licenses in Illinois. He has two married children.

Kappa Karmival Planned April 23-26 at SIU

One of the nation's largest social gatherings of college students will be held April 23-26 on the Carbondale campus of Southern Illinois University.

The event, the annual Kappa Karmival, is sponsored by Kappa Alpha Psi, a predominantly black national social fraternity at SIU. Last year the Karmival drew more than 4000 persons, including students, brothers, alumni, and friends and relatives of Kappa members. The Karmival hopes to attract a larger crowd this year.

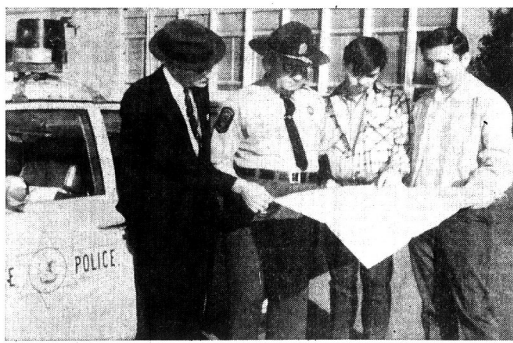

The celebrations will begin with a housewarming at 8 p.m. on April 23, at the Kappa fraternity house at 112 Small Group Housing.

On April 24, there will be a Pre-Karmival dance at Grinnel Hall with Al Waples, a disc jockey with St. Louis' KWK, spinning records.

April 25 will feature an afternoon jazz workshop held at the Golden Gauntlet, a Carbondale cabaret, and a basketball tournament. Later that evening, from 8 p.m. to midnight, there will be the Karmival dance and the coronation of the queen at the arena. After the Karmival dance, couples can return to the Golden Gauntlet, where a dance will begin at 1 a.m.

This year the Karmival's theme is "Kappas on the Freedom Train," with decorations and costumes revolving around the theme. The steering committee includes Earl Gilmore of Madison.

Music Auditions Set April 25 at SIU-SW

Musically talented high school seniors are invited to audition for scholarships at Southern Illinois University-Southwestern on April 25. Deadline for applications is April 1.

Transfer students from other colleges and universities are also eligible to audition, according to Robert Schieber of the fine arts division. The only requirement, he said, is talent and willingness to contribute to the university's musical organizations. It is not necessary, he explained, to major in music.

Those who wish to enter SIU-SW next fall and to try out for a scholarship should write the Scholarship Committee, Faculty of Music, Southern Illinois University, Edwardsville 62025. Further information will be sent to them and audition appointments arranged.

DeMolay 'Road Rally' To be Held March 21

The James Stuart chapter, Order of DeMolay, will be holding a "Road Rally" for chapters of the Southern Illinois DeMolay Association beginning at 9:30 a.m. March 21 at the Granite City high school football field.

Rally teams will be composed of a driver and a navigator, both of whom must have a driver's license. Their car must be of the street model variety (no drag strip models) and proper insurance must be in force.

All traffic laws must be obeyed and any violation will cause automatic disqualification. The rally is intended to test the driving skill of the participants and their ability to follow directions.

William Wittkamp and Tim Noud, members of the rally committee, and advisors Claude Echols and Charles Meyer met with Capt. Emil Tofant, commander of district 11, Illinois state police, and Sgt. H. J. Schwertfeger, director of the district's safety education unit, to discuss the rules of the rally and to go over the road route.

Each participating team will be given a 1970 Illinois map. The route of about 200 miles will not be marked on the map. The navigator will be given a set of written directions which will describe the route to be taken.

The Illinois map will be a reference guide. The route will follow marked highways as well as unmarked country roads, and participants will be checked at four points enroute. No contestant will have knowledge of the route prior to the start of the rally.

Other committee members are Paul Boyer and Keith Mercer, co-chairmen, and Charles Libby.

GC Youths Place 4th At 'Recreation Day'

Granite City park district, represented by 45 young athletes, failed to dethrone the defending champion—Centralia—in the fifth annual "Recreation Day" meet, held Saturday at Alton.

Only one local competitor, Keith Melancon, emerged a champion, capturing a first place win in the boys' singles table tennis event.

The local boys high school league basketball team, represented by the Roca Club squad, suffered an upset loss in a first round contest with Highland, losing by a score of 49-46.

A third place win was tallied by the girls' high school bowling team, with a three-game total of 2153; and the girls' volleyball team, beat Roxana, 15-6, lost to Centralia, 39-12 and came back to take third place with a 49-50 win over East Alton.

Third place victories also were won by Ruth Noeth in singles and doubles table tennis matches. In the latter contest, Noeth was teamed with Kathy Affolter.

The Granite City young people accumulated a total of nine points, placing them fourth in the overall team standings. Centralia with 27 points was first, followed by Alton, 19 points and Cahokia, ten points.

More than 405 boys and girls took part in the day-long activity, sponsored by the Southern Illinois Park and Recreation Association. Other communities participating were Brooklyns, Wood River, Roxana and Highland.

Article by GC Student
Published in Magazine

An article written by Susan Greco, a Granite City high school junior, appears in the March edition of Illinois History, a Magazine for Young People, published by the Illinois State Historical Society. The issue is devoted to "Ethnic Groups in Illinois." and Miss Greco's article is entitled "Italians in Illinois: The Second Chance." She is the daughter of Mr. and Mrs. Dominic Greco, 1813 Pontoon road. Her article follows:

Into the New York harbor steamed a small tugboat carrying approximately forty-five passengers. Although the freezing wind was quite uncomfortable in that December of 1940, the older adults had a smile on their faces. As they passed the Statue of Liberty, they gazed at it with a feeling of great happiness within them, and they knew that this statue represented the answer to a prayer which seemed almost impossible.

The people on this boat came from Vizzini, Sicily. They were considered part of "the new immigration." They had heard, as had millions of other people, about the "new life" or "second chance" which was being offered in the United States. This free land was considered as "the new land of opportunity."

Among the Italians in that boat were my great-grandparents and their ten-year-old daughter. When residing in Sicily, they lived as almost everyone else did: like peasants, not knowing where their next meal was coming from. There were few jobs in Vizzini and the salaries were very

low. My great-grandparents had once operated a small cafe in the town square but were forced to close its doors because of poor business.

So my great-grandmother made clothes from portions of material she had around her home and sold them on street corners. After saving her earnings for several years, she and her family had enough money for passage on a small boat carrying other Italians to America.

When they reached land, my great-grandfather purchased three train tickets and came to Venice, Illinois, an Italian-dominated city, where he had relatives.

Many of the immigrants were crowded together in miserable, unhealthful conditions. Because they could obtain only the hardest, lowest-paying jobs, they had no money to fix up their homes.

My great-grandparents had to live with a relative for awhile because they could not afford a house immediately. Meanwhile, they obtained jobs in a small restaurant. Their work consisted of washing dishes and working in the hot kitchen all day. Their pay was very low, but there was not anything else they could do at the time.

Although this great move to a new land seemed like an answer to previous problems, many people were severely disappointed. Most of them were discouraged, however, because this was definitely a better life than in Sicily. (From an interview with Mrs. Pauline Greco, grandmother of author, Granite City.)

Parker, Jones Speak To GC Social Classes

Operations of the new Madison county jailer house juvenile detention home and of the county probation office were described to students in social science classes conducted by Al Lewis at Granite City high school during all periods yesterday and today.

Speakers were Jim Parker of Granite City, juvenile probation officer, and Thurl C. Jones of Granite City, adult probation officer. They conducted the programs at the school once each semester.

Parker conducted the program Wednesday. He showed slides of the detention home at Edwardsville, discussed procedures for handling juvenile offenders (under 17 years old for boys and under 18 for girls) from the time of arrest through disposition of the case, explained the Juvenile Court Act and distributed lecture materials. A question-and-answer session was held.

Jones explained the work and procedures of the adult probation office and distributed lecture materials.

Accounting Grads In Demand, Other Job Offers Down

With the exception of accounting majors, the national 1970 college graduates are being wooed with fewer job offers but higher pay, according to Heraldo Largent, director of Southern Illinois University's placement service at the Carbondale campus.

Largent, citing the mid-season report of the College Placement Council's nationwide salary survey, said the slowdown in recruiting by the country's business and industry "apparently reflects the nation's soft economy."

Compared to a year ago, the national statistics reveal a drop in the volume of 1970 for prospective bachelor's graduates, 26%, for master's candidates and 14% for Ph.D.'s, he said.

According to Largent, however, continues its "meteoric rise," with a 56% gain in the volume of offers to bachelor's graduates in the last three years. In comparison with last March alone, the gain has been 9 per cent.

"Dollars-wise, accounting has been increasing at an average rate of approximately 9 per cent for the last three years and is apparently continuing that trend with a gain since last June of 8.5%, rising from \$961 to \$1042," Largent said.

Other salary offers also have risen, in the face of reduced employer activity, he said. Offers to technical candidates have gone up 5.1% since June, from \$819 to \$861, and to non-technical students 7.6%, from \$711 to \$765. The figure for non-technical students was affected appreciably by the accounting increase, he pointed out.

The cut-back in the aerospace industry, "historically the employer group making the most job offers," caused a drop in offers to technical graduates with the bachelor's degree from 2294 a year ago to only 962, but chemicals, electrical machinery and electronics also showed a decline.

Other than public accounting firms, the only large-volume employer groups employing non-technical students which showed substantial increases were public utilities and petroleum.

Of the 141 colleges and universities which participate in the council survey, The council serves about 1300 colleges and 2100 employers.

Music Awards Day to Be Held at SIU-SW

Southern Illinois University-Southwestern will hold its annual music scholarship and activity award day on April 25.

The awards cover the cost of tuition of \$115 per quarter for Illinois residents and \$285.50 for out-of-state residents but do not include student fees of \$48.50.

All high school seniors interested in pursuing their musical activities while in college may audition at this time. Tuition grants will be awarded to qualified students in all band and orchestra instruments, voice and keyboard. A student is not required to major in music to qualify. Registration forms are due before April 1.

Scholarship Commission's Monetary Awards

The first of three separate announcements of monetary scholarship and grant awards for the 1970-71 college year is being made to students this week by Dr. Lloyd S. Michael, chairman, Illinois State Scholarship Commission.

More than 30,000 Illinois high school seniors (40% of the college-bound youth) applied to the commission for financial aid from the college of their choice within Illinois. Of this group, 19,160 demonstrated eligibility and financial need for \$12,240,000 as evidenced by data provided by the student and his family.

The monetary winners are being assigned awards up to \$1200 for 1970-71 for use toward tuition and fees at the public and nonpublic colleges and universities in Illinois. The award recipient represents virtually every high school in the state.

Dr. Joseph D. Boyd, executive director, announced that since September of 1958, the Illinois State Scholarship Commission has invested about \$77 million in 126,300 monetary award winners.

For 1969-70, 38,200 students have received \$26.4 million in financial assistance. In 1970-71, it is anticipated that \$29.5 million will be available to assist 42,500 undergraduate students.

By June of 1971, the state of Illinois will have invested \$106.6 million in 168,800 awards through the State Scholarship Commission scholarship and grant programs. About 79% of these funds (\$84.2 million) will have gone to students attending nonpublic Illinois colleges.

A recent study of scholarship and grant recipients indicated that the Illinois State Scholarship Commission awards do affect a student's college plans.

It can be estimated that 3700 of the winners announced this week would have been forced to attend a second or third year college without the Illinois State Scholarship Commission aid; 3050 can now plan to enroll in nonpublic colleges where otherwise would have been enrolled in public colleges because of financial reasons; 4420 of the winners would not be able to attend any college full-time without Illinois State Scholarship Commission assistance; and 207 of the new winners would have attended out-of-state colleges without an Illinois State Scholarship Commission award.

For those high school senior students who missed the deadline (Dec. 15, 1969), a second opportunity is being made available. A limited number of applications have been sent to the colleges and universities in Illinois for distribution to interested students.

These specially marked applications can be obtained only through an Illinois college (not from a high school nor from the Illinois State Scholarship Commission office) and must be completed and returned to the college prior to June 1.

Interested high school seniors should contact the Financial Aid Office of the Illinois college they plan to attend.

High school juniors planning to enter college in September of 1971 can indicate their interest in Illinois State Scholarship Commission consideration by taking the April 25, American College Testing Program (ACT) examination. Bulletins for use by high school juniors, explaining the 1971-72 program, have been mailed to all high schools.

The Illinois State Scholarship Commission also administers a Guaranteed Loan Program. Since August of 1968, 107,400 students have received guaranteed loans from private lenders totaling \$113.9 million. More than 41,000 have borrowed for 1969-70 college expenses and it is estimated that 50,000 loans will be guaranteed for the academic year 1970-71. Loans can be used for full-time undergraduate or graduate study in or outside of Illinois.

Army Nurse Program Offered to Students

Qualified high school seniors and recent graduates may obtain four-year scholarships covering most of the expenses and tuition leading to bachelor of science degree in a nursing program through a special program sponsored by the U.S. Army.

Sgt. R. B. Mabry, local Army recruiter, announced that interested men and women have until March 31 to apply for the scholarships under the Walter Reed Army Institute of Nursing (WRAIN) program.

Nursing recruits attend an accredited college of their choice for two years with educational expenses such as tuition and fees paid by the Army. They also receive pay and allowances as privates first class in the Army Reserve.

They then transfer to Walter Reed in Washington, D.C., for a special program conducted by the University School of Nursing.

After four years of study, graduates receive B.S. degrees in nursing and are commissioned as second lieutenants in the Army Nurse Corps with an obligation to serve on active duty for three years. Further information may be obtained at the recruiting office, 1206 Niedringhaus avenue.

Students Advised to Enroll Now at SIU-SW

Students planning to enroll at Southern Illinois University-Southern have been advised to apply early, according to Eugene Magac, director of admissions. The application rate is now 44% over the same period last year.

Admissions for fall of 1970 are not closed, but it is anticipated that the campus population will reach a new high this fall with an estimated 13,100 students. This figure would be an increase of 1600 over last year's figure of 12,154.

According to Magac, freshman admissions are coming in faster than they have in previous years. To date the percentage of increase over a year ago is 37%. This represents a total of 1700 freshman applications received thus far for this fall, compared to 1224 applications received at this time last year.

Transfer applications are up too, but they are still light. So far there have been 150 transfer applications for this fall, compared to a total of 48 for the same period a year ago.

The total number of freshmen actually admitted for next fall at this time, as compared to last year, is up 49%.

Kessler, drums; Bob Parks, lead vocal; Kenny Kessler, bass guitar and Mike Atinip, lead guitar, received a standing ovation and a \$150 cash award.

Serving as judges were Barry Freedman, Charles Ringering, Bob Hanson, David McBride and Mike Ireland. Mrs. Sharon Littlejohn was chairman of the band contest, representing the Granite City Community Services board of directors.

100% Increase in Traffic Predicted in 20 Years

(Fourth in a Series)

A 100% increase in traffic using state and federal routes in Madison County is predicted over the next 20 years, but existing roads are inadequate to handle the increase, according to the land use and transportation plan for the county prepared by the Southwestern Illinois Metropolitan Area Plan Commission.

The current road and highway system is inadequately located and improved to efficiently handle existing traffic in the area, and the collector street system is particularly deficient. Principal north-south routes are inadequate and inconvenient, the SIMPAC study shows.

Interstate volumes vary from more than 30,000 a day in the vicinity of the south county line on Interstate 55 to a low of 700 at the Interstate 70 and Route 4 interchange. High volumes are generally carried on principal routes, but higher volumes normally occur on the routes located in the central city areas. Such as the route with Route 3 in East Alton where an average volume exceeds 40,000 per day.

System inadequate. The existing urban principal and collector system in the county is inadequate, the report points out. Many of these routes have limited improve-

ments, such as sections widened from two to four lanes with the narrow two-lane pavement remaining to carry the bulk of the traffic.

Much of the congestion is due to the location of the principal and collector routes. Motorists using these routes must drive through the central business districts of virtually all of the cities within the county.

With uncoordinated traffic control devices, frequent stop signs, parallel parking and no access control, the through city routes are becoming impassable, according to the report. Extensive development has occurred along the system, adding to the congestion and decreasing the capacities of the roadways.

The rapid growth of various sections in the Madison-St. Clair counties area is creating many new traffic problems as well as compounding the existing ones.

Volume Increasing

Traffic volumes are increasing at a rapid pace. Generally traffic on the principal and collector urban routes is increasing about five per cent a year. Lack of funds for state and county highway departments prevents improvement of all these routes to meet the needs of the increasing traffic. These streets will have about a 100% increase in traffic in the 20-year

planning period. The rural principal and collector routes, generally, will be capable of handling the anticipated increase in rural traffic if certain narrow pavements and bridges are widened and other points of congestion corrected.

Interstate routes will have about a 200% increase in traffic in the next 20 years, the report states, but they generally are adequate to handle about 300% of the traffic volume.

Truck Traffic. Truck traffic also has an adverse effect. On level, free moving routes, a truck has the passenger car equivalent of two vehicles. But in an urbanized area with a rolling terrain, a truck has the equivalent of 12 passenger cars, resulting in

further congestion on several of the routes with a high percentage of truck traffic.

If all the presently planned or contemplated improvements are scheduled on schedule there would remain several serious areas of inadequacy in the overall system.

Transportation and local access is of prime importance in the development of an area which usually occurs along well improved major routes. If the necessary principal and collector streets are not designed in advance of, or at least in conjunction with the development, the area will not develop in a sound manner.

The numerous railroad grade crossings cause extreme traffic congestion and the problem must be solved.

New Brochure Tells Illinoisans Of Their Rights

Atty. Gen. William J. Scott has prepared a new brochure designed to familiarize every Illinoisan with his rights under the laws of Illinois. The new free brochure covers the individual rights of Illinoisans in public places of accommodation, state and municipal jobs, hospitals, civil service, housing and redevelopment, liquor sales, parks, public welfare, public works employment, public schools, private business schools, state militia, voting and the far-reaching Fair Employment Practices Act.

Many Illinoisans are probably not aware of the broad reach of many of these protections. The statute dealing with individual rights in public places of accommodation, for example, applies to such diverse sectors as buses, public golf courses, cemeteries, hat stores, elevators and bath rooms. These are but a few of the specific accommodations spelled out in Chapter 28, Article 12 of the 1967 Illinois Revised Statutes.

In the matter of emergency medical care, it is clear under the law that "no hospital, either public or private where surgical operations are performed, operating in this state, shall refuse to give emergency medical treatment or first aid to any applicant who applies for the same in case of injury or acute medical conditions where the same is liable to cause death or severe injury or serious illness."

Farm Program Sign-Up Deadline is March 20

Pointing out to producers that the farm program sign-up deadline of March 20, is rapidly approaching, Lee Rogers, county executive director Madison County Agricultural Stabilization and Conservation (ASCS) office, is urging farmers to sign up as soon as possible at the county ASCS office on Old Alton road, Edwardsville.

"To date, 1329 farms have been signed up for the 1970 feed grain and wheat programs," he said, "out of a total eligible number of about 2800. This indicates that we will have the usual last-minute rush near the close of sign-up period. Farmers may save themselves from standing in line if they come in now to sign up."

Farmers can sign up for feed grain and wheat programs at the county ASCS office Monday through Friday, 8 a.m. to 4:45 p.m. through March 20.

The brochure also notes that any qualified elector who is unable to be present at the polls because of the tenets of his religion in observing a religious holiday, may vote by absentee ballot.

Scott's brochure was designed to familiarize Illinoisans with these far-ranging, but not widely known, protections. Free copies are available to any citizen by writing to: Attorney General William J. Scott, Supreme Court Building, Springfield, Ill. 62706.

Ernest Walker, 81, Former Resident, Dies

Ernest Walker, 81, of St. Jacob, Ill., a retired farmer, was found slumped over in his car with the engine running and was pronounced dead on arrival at St. Joseph Hospital in Highland at 12:15 p.m. Monday. He had a history of a heart ailment. There will be an inquest to determine the cause of death.

Born in Missouri, Mr. Walker engaged in farming in the Pontoon Beach and Nameoki areas almost all his life, retiring in 1960. Mr. Walker was a member of the First Methodist Church in St. Jacob.

Surviving are his wife, Clara; two step-children, Charles Rogers of Glen Carbon and Mrs. Aldora Wilhelmy of Granite City; a sister, Mrs. Effie Marshall of Nashville, Tenn.; nine grandchildren and 15 great-grandchildren.

Funeral arrangements are given in today's obituary column.

Easter Programs To be Published

The Press-Record will again publish Easter programs for churches of the Quad-Cities. Pastors or church secretaries are requested to submit the programs well in advance of Easter for compilation by the news staff.

The programs are being scheduled for publication the week of March 22.

The programs may be either mailed or brought to the Press-Record office, 1815 Delmar avenue.

Driver License Office Open Wednesday Night

Starting next week, almost all Drivers License Examining Stations in the state will be open Wednesday evenings on an experimental basis, Illinois Secretary of State Paul Powell announced today. Stations to remain open until 8 p.m. Wednesdays include the Granite City office at 1815 Edison avenue.

The present schedule of 8 a.m. to 4:30 p.m. will continue other weekdays, Powell said. Noting that no road tests will be given after 4:30 p.m., the state officer said the extended hours are being provided in an effort to accommodate drivers who are required under the state's re-examination program, to take only the written test of traffic laws, the vision test and the road sign recognition test.

About 1,750,000 examinations are now being given each year.
